### BRECKENRIDGE NEWS.

WEDNESDAY, NOVEMBER 15, 1900.

#### Some Breckenridge Boys in the Promised Land.

ANTHONY, KANSAS, Nov. 4th, 1900.—Dear Emma—To-day finds me back in the state of Kansas, where I will remain for several days. I have just returned from a week's "tour" in Cherokee outlet or New Oklahoma, better known to the people in these parts as the "Promised Land."

These new and fertile lands were opened to settlement on Sept. 16th, 1890. Fast and surprising to say, there are now towns of three and four thousand population and a rude but handsomely built on nearly all the quarter sections in this new country, except where the land is located to far from railroads to get their building material, and even there, many are building solid houses and dugouts, which to the people of our state would seem quite queer.

Cyrus Green, Art Goodman and myself composed the little company camped on section 4, in township 23, range 10, of this new state, the Little Rock country. We have each secured nice claims of 160 acres each in the broad prairie lying north of the Cimarron river and in two and one-half miles from the large source of fine timber known as the "jacks."

For the last week numerous prairie fires have been spreading over this section of the country, and doing quite a bit of damage, burning up some houses and farming implements and a large amount of hay that has been put up since the day of settlement. There is at present a good many conflicting claims where two or more would take the same one, and they both at all refuse to leave and I suppose some have been killed because they refused to give up to some one who thought they were first. One man was found floating on the surface of a large pond with a sledge hammer and pick tied to his hands. He was taken out and an inquest held over the body, but was not recognized. He was buried in a sand hill to remain until the final day. It is supposed he was killed in a quarrel about a claim. There is little contesting in our part of the country, and in fact several good claims not taken yet and likely will not be before spring. There is lots of fine grazing land that is too sandy for farming purposes, not taken and will not be only by some persons who wish to raise cattle, for which the sandy land is the best. There is also in each township two sections of school land that will be leased one-fourth or quarter to any one who will take it for three years at \$25 per year, and then it will be sold to the highest bidder giving the one who has bid it leased the preference. I think this is almost as good as to own the land if any one only wanted to try the West a few years. I would be glad if there were more of my neighbor boys with us, for I am satisfied this is as good a strike as they could make for their future life.

Art Goodman will leave us in a few days for Kentucky, where he will stay for several months getting outwitted by the L. S. L. & T. R. R. We have to see him start as he is the only one of our old neighbors that is with us here, and we will miss him in our rambles over the new country. We will go back to this country again in ten days and make a deer hunt, as deer are very numerous down there, I think we will have good success. Hoping someone may attend the News and all who read it, I am yours respectfully,

D. G. HARNES.

**Life is Bitter.**  
To many people who have the taint of scrofula in their blood. The agonies caused by the dreadful running sores and other manifestations of this disease are beyond description. There is no other remedy equal to Hood's Sarsaparilla for scrofula, salt rheum and every form of blood disease. It is reasonably sure to benefit all who give it a fair trial.

Hood's Pills cure all liver ills.

#### A Few Remarks on Education.

KIRK ELLISON—Please allow space in your estimable paper for a few remarks that I wish to make regarding education. Education should be the leading topic of every parent and young person of this age. I do earnestly claim that every person who will apply reasonable energy and untiring patience will within a short while be the possessor of an excellent education.

Probably some one may ask why he should try to educate himself.

I will not undertake to state the extent and importance of an education, but will state that the importance of a good education cannot in my mind be too highly estimated. Education not only elevates our intellectual powers, but will better fit us for future life and will be a grand blessing to us all through life.

There is a popular delusion that infests the minds of a majority of us young people that our opportunities to gain knowledge are few, that I will admit, but young friends, the greatest error that we make in educating ourselves is that we do not try to improve our time when we meet with an opportunity to do so.

Good schools are becoming so numerous, that there is no excuse for any person to grow into manhood or womanhood without educating themselves. Of course some have very poor opportunities for educating themselves, but I believe that anyone who will work with undaunted courage will be successful, regardless of circumstances. I regret that I am devoid of words to express my thoughts of the majority of us young people. However, my desire is that those few scattering remarks will be instrumental in causing some experienced person to write to your columns and try to arouse an interest within the heart of every young person regarding the importance of an education.

M. E. AVITT,

Matingly, Ky., Nov. 4, 1895.

I love a maiden fair to see  
And best of all she loveth me  
Our hearts both beat in unity  
We are all of Park's Herd Ties.  
For she was sallow and I was red  
And neither of us would ever have had  
Had it not been for her aunt who said  
"Take Park's Tea when you go to bed."

#### UNION STAR.

J. J. SEVENS was in Louisville this week.

R. C. Richardson spent last week in Louisville.

#### WHAT KENTUCKIANS SAY ABOUT THE ELECTROPOISE.

The Electropoise has been a positive benefit to me. J. H. Lindbergh, Louisville.

My confidence in the Electropoise grows stronger the more I use it. Rev. W. W. Evans, Carrollton.

I look upon the Electropoise as the means God has given us to cure disease in accordance with nature's law. Miss Susan Edgley, Lexington.

Nothing has ever helped me so much. T. M. Mabney, Lexington.

Do not hesitate to recommend the Electropoise. W. G. Graham, Lexington.

I am astonished at its work. Henry Gilbert, Lexington.

The Electropoise will cure many cases of disease where nothing else will. It has worked like a charm in my family. Rev. Geo. H. Means, Covington.

It is certainly a wonderful instrument, and it is more wonderful how it does its work, yet it does it. T. E. C. Brinley.

(The veteran pulp manufacturer of the South), Louisville.

The Electropoise has been such a useful thing about the house that we can do without it. Frank F. Waller, Lawrenceburg, formerly New Castle.

Several of my acquaintances have derived much benefit from the use of the Electropoise.

J. Guthrie Cook, Russellville.

The 'poise has cured me of kidney and liver troubles. J. F. Savage.

511 E. Gray street, Louisville.

The Electropoise has been a great relief to me. Rev. T. B. Miller, Russellville.

The Electropoise has proved a great boon to me. E. Crockett, Christianburg.

I would rather have an Electropoise than Hot Springs for Rheumatism. W. O. H. Marshall, North Fork.

It is small but great. T. A. Dwyer, Franklinton.

There is wonderful good in it. J. S. Calhoun, Smithfield.

The wonder-working cure. Rev. W. F. Wyatt, Morning View.

I speak advisedly about the wonder working of the Electropoise as I have practiced medicine many years. Rev. D. H. Marimon, Pittsburgh, Ky.

If you will send your name or that of some invalid friend we will send you copies of letters from the above parties and from hundreds of others; people you know from every section of this and other States testify to the curative powers of the Electropoise. Address DUFOUR & WEBB, Louisville, Ky.

# Kleinmans & Simonson's Proclamation

WHEREAS, we promised fourteen years ago that as our volume of business increased, our prices should go lower, and have kept our faith with the people and fought high-handed competition tooth and nail through the long and eventful war, we this year inaugurate our Fall Campaign by a general marking of prices all through the store TEN PER CENT. LOWER than last year, and 25 per cent. lower than any other house in the South.

We can afford to do this and still make a fair profit on our labor as the skilled and alert buyers of our eight great branches and connections in Buffalo, Cleveland, Detroit, and other cities stand ready at all times with cash to buy stocks thrown on the market at fabulously low prices, giving us enormous advantages, such as no house on the continent outside of our combination of scores possesses or can possess.

#### Warning Against Small-pox.

BOWLING GREEN, Ky., November 4, 1895.—To the Health Officials, Physicians and People of Kentucky.

This Board has received official information of the existence of small-pox in many sections of this country, particularly in Indiana, Ohio and Pennsylvania. It also prevails extensively in Europe, and manifests an unusual tendency everywhere to break over official control and become an epidemic form.

This board, therefore, feels it to be its duty to warn the people that decisive action should at once be taken to protect the State from this pestilence.

Fortunately the method of prevention is as certain in its action as it is cheap and easy to obtain. Vaccination and re-vaccination, properly done, completely insures the individual, and is entirely free from danger. This is the conclusion of the scientific world, after full investigation at large experience, and may be thoroughly relied upon.

Notwithstanding that this safe, cheap and perfect protection is within the reach of all, it is sad to find that nearly one third of the people of this State have never availed themselves of it. Intelligent persons would not wait for the law to force them to an evident duty. No one should allow himself, or any one for whom he is responsible, to remain unvaccinated at any time, and especially in the face of the present danger.

Mr. H. L. Wilson, Stumpston, Va., says: "Lightning Hot Drops is the best medicine I ever used for pain; for cramps and colic in children, it can't be beat. For flux, it is the king."

Mr. R. H. Blankinship, of Today, Va., has a very true story: "Last April I had an extremely severe attack of diarrhea; had twenty-one actions of my bowels in less than two hours. I took three doses of Lightning Hot Drops and it relieved me instantly."

Lightning Hot Drops is the safest, surest, quickest remedy ever compounded for each and all of the above complaints. Moreover, it cures all pain, external and internal, and is the best safeguard known to destroy the evil effects of a change of water or diet. Pleasant to take. Sweetened, children like it. Lightning Hot Drops is sold by all dealers in medicine, at 25c and 50c a bottle, on the guarantee. No relief, no pay. Try it once. Be not deceived. Look for Trade Mark of natives gathering herbs. Made only by Herb Medicine Co., Springfield, Ohio.

#### CHOLERA! FRESH OUTBREAK IN BERLIN.

Alarm for its Invasion of America Well Founded.

The telegraphic dispatches of January 21st report the outbreak of cholera again, in Berlin, 65 cases and 19 deaths being reported.

Just now, when an epidemic of Asiatic cholera is among the alarming possibilities, all stomach and bowel troubles assume an importance beyond the ordinary, and should meet with prompt treatment. Cholera morbus, cholera infantum, diarrhea, dysentery, flux, colic and cramps, wind on the stomach, biliousness, distress after eating, etc., all point conclusively to a bad condition of the stomach and bowels, and all such disorders should be corrected at once.
